The daring the day.

Another matter which was mention of by Mayor Conaway and which will which Mr. Montgomery finds himself, and Col. Fred Paul Grosscup who ran third for the nomination, has another violators of the law to report for trial at the hour instructed. Recently several different persons ordered to police court have promised they would come in for trial, the officers letting them off without a forfeit, but as a rule such persons fail to show. This has been especially true with the arrests for speeding.

has been removed.

There is a lot of pretty wise politicans here who are predicting that nothing short of a statement from Mc Adoo that he will not accept it mainted, can prevent his nomination. They say that all of the delegate who were for him originally seem to be for him still and that his vote on the first ballot will be so large that he will have a great advantage over both Cox and Palmer.

Palmer seems to be losing ground and the best guess is that the first real test of strength in the convention will be between Cox and Ko Adoo.
